

EMPORIUM AQUILA

hand selected fine foods

tradition and quality

Driven by a passion for gourmet food and high-quality ingredients, Emporium Aquila was established in 2007, as an independent wholesaler and distributor on the beautiful Sunshine Coast, Queensland Australia.

Our product range is carefully hand selected from around the world. With our enthusiasm for travel and culture, we aim to discover the most exquisite foods from different countries. We pride ourselves in only selecting the best and finest food on offer, so you can enjoy using local and international ingredients that will enchant your guests.

We work with well established brands such as La Stella Latticini, Garofalo Pasta, Molino Colombo, Rosso Vesuvio, Solania San Marzano and Pino's Dolce Vita Salumi - to name a few.

We love tradition and, in many cases, have travelled to the exact location from where our products have been sourced. We've met the people behind the brands and observed their traditional food manufacturing methods.

Emporium Aquila is a family-owned business and we see our extensive product range as a 'window to the world', where you have the opportunity to find the highest quality delicacies, as if you have travelled to the very source yourself.

Our commitment and core service is to source and distribute high-quality fine food, and to provide you with a great sales experience in selecting products for your next culinary adventure.

la stella latticini

At La Stella Latticini we are proud to continue the years of dairy traditions that were born in Campania, in the south of Italy. These traditions gave life to the best dairy products in the world and La Stella continues to replicate these traditions in our cheese making facility right here in Sydney Australia.

Embracing ancient tradition that is used alongside modern technology, and with thorough selection of the best buffalo and cow's milk, we create very special products. La Stella is dedicated to producing the highest quality mozzarella in various sizes as well as other specialities such as smoked Scamorza, Caciocavallo, soft and semi-soft cheese. Furthermore, La Stella has created something new for Australia, buffalo ricotta, a very original flavour experience that is tasty, light, and has a low-calorie content.

At the base of our business' philosophy is first and foremost, the constant research for the best quality of raw materials. We exclusively work with raw cow's milk daily milked at Leppington Pastoral Co. farm in Bringelly NSW. The buffalo's milk processing is made instead with an amazing milk of Campania that is imported fresh frozen. Our production methods have origins

and keep close links to the ancient cheese makers' way of production. We try to keep as close to traditional methods as possible, whilst still maintaining very strict health and hygiene rules.

We are proud to share an important achievement, a result of dedication, passion and love for our job. Every year, the Royal Agricultural Society of NSW hosts an important event where various categories are judged, from dairy products, to beer, pasta, olive oil, meat, chocolate and coffee. Among these, one of the most coveted prizes is the Cheese Dairy Produce award, introduced in 1994. In 2019, our dairy won eight awards in this category.

Our Buffalo Ricotta was awarded with a gold medal. Four silver medals went respectively to Buffalo Mozzarella, Fiordilatte Lavorato a Mano, Nodini, Smoked Scamorza Log, and three bronze medals were awarded to Buffalo & Cow Milk Mozzarella, Cow Milk Ricotta and White Scamorza. It is with great satisfaction that we receive these awards and we hope to continue to excel through our passion and dedication, guaranteeing fresh and high-quality products.

SMALLGOODS

pino's dolce vita

Pino's Dolce Vita is an 8 generation family of butchers, originating from the village of Terranova, Calabria. For generations they have provided their communities with artisan smallgoods and fresh meats, processed and cured using traditional methods and secret recipes.

It starts with the best quality ingredients. Pino's Dolce Vita sources only the highest quality meat from some of Australia's best farmers, maintaining close relationships with their suppliers so they know exactly what goes into each and every product.

Pino's Dolce Vita suppliers include: 100% grass fed natural beef, Gundooee organic wagyu, Bangalow sweet pork, Borrowdale free range pork and Talucapark free range.

Pino's preference is to choose animals that are pasture-fed and raised in a free-range environment because they believe it makes a better product. These animals are free from added growth hormones or therapeutic antibiotics and the meat is dry aged for several days before being processed. This gives the meat a more tender eating quality and better flavour.

Learning from experts from a vast range of cultural traditions, Pino's fascination with South American, Spanish and Portuguese produce has resulted in creating a range of products that speak in many different accents and give the consumer an exciting range of flavours and food experiences to enjoy.

Pino's Dolce Vita range now includes over 100 varieties of sausages (all gluten free) and an ever growing range of smallgoods, all made by hand on site in their production facility in New South Wales.

PASTA, RICE, GRAINS & POLENTA

pasta garofalo

Garofalo was established in 1789 in Gragnano, (Naples) the homeland of pasta. The climatic conditions of the area are perfect for drying pasta, and the presence of spring water that fed the mills made Gragnano the ideal place for the production of pasta.

At the end of the eighteenth century, with a Royal Decree, Michele Garofalo obtained the exclusive concession for the production of pasta, as it was considered "well made".

Time has rewarded the original formula of Garofalo, which combines a drive for innovation with an unstoppable search for quality. The classic pasta dough, is made unique thanks to the constant research of Garofalo's master pasta makers. Our durum wheat semolina pasta offers all the fullness of tradition, enhanced by the choice of superior wheat and an extraordinary taste to boot. The dough is bronze drawn to give it a unique roughness and texture on the palate. The Pasta di Gragnano PGI certification guarantees the presence of precise characteristics, for a high-quality product.

Garofalo's quality is unmistakable and the product speaks for itself. At the base is our dedication to excellence, our desire to make the pleasure of good food an exact science, without giving up creativity.

Garofalo is a brand that is highly appreciated and recognised for its unmistakable identity in Italy and in the world, it is also thanks to the people who work daily while sharing our dedication and our goals, putting all their expertise at the service of a product made with care.

cucina moderna

Cucina Moderna was founded in Brisbane in January 2021, after more than a year of market research and product development.

The concept behind this project is a mix of Italian passion, love of quality ingredients and dedication to traditional Italian food, designed to make available convenient yet authentic hand-made Italian products to the Australian ready-made market.

We aim to create the best ready-made fresh-frozen pizza dough, so you can experience the true taste of Italy right here, Down Under!

In August 2022 we expanded our operation by acquiring a well-known, established and much-loved Brisbane pasta business called The Pasta Company.

The aim of our expansion was to integrate the best ready-made fresh-frozen pizza dough that Cucina Moderna was already producing, with the very best quality Italian fresh egg pasta in Brisbane.

Since expanding our operations, we proudly offer a comprehensive range of authentic Italian products both fresh and frozen, without losing focus on delivering exceptional flavour.

Quality is at the centre of everything we do. We use only the best Italian flours, traditional Italian recipes mixed with Italian love, and combine it with premium local Australian products to create a range of authentic Italian ready-made pizza, pizza dough, pasta including ravioli, gnocchi, lasagne and ready to eat pasta sauces.

FLOUR, YEAST & PIZZA

molino colombo

Established in 1882, Molino Colombo are the first electric-powered flour mill in Italy. Since then, we have preserved the values of the ancient milling art and we mill slowly, keeping the properties of the grains unaltered.

Today, after a century of premium quality tradition, Molino Colombo remains a landmark for those who consider excellence the target to pursue. The use of the best grains is essential in order to stay at the top of an extremely competitive market. Our production philosophy is marked on the promotion of the highest crafters' values. However, today it is possible to produce excellent flours without the use of additives.

Food security is fundamental to Molino Colombo. For this reason, we perform over 70 checks on the flour, to guarantee the highest quality standards. It is our urgent efforts searching raw materials and maintaining production methods that allow us to exalt the aromas and the flavours of ancient bread. We do not work to be the first but to be the best!

PATISSERIE

san giorgio

San Giorgio was created in the 80's by Sabato Bruno, who, over the course of over three decades, has transformed a small pastry shop in Castel San Giorgio, near Salerno, into a large croissanterie company specialized in the food service market: San Giorgio Dolce & Salato.

With commitment and dedication, the original tiny pastry kitchen has become a factory that produces excellence: Sabato's passion, which is fully shared by his sons Antonino and Ivan, have been and continue to be the cornerstone of the company's constant growth. The industrialization process has not, however, affected the quality of the products in any way, which have kept their artisan soul and genuine flavours: little masterpieces of taste that respect tradition but which are able to meet the needs arising from change in the domestic and international marketplace.

PIZZA TOOLS

piazza

PIAZZA

Excellence since 1880

For over 140 years, Piazza has been synonymous with professional quality that combines technique and design, to create products of simple beauty and perfect functionality.

The union of design, technique and experience gives life to Piazza's new pizzeria collection, a unique combination of beauty and efficiency. A renewed and now even more complete range, characterized by the round end knob which, in the design and gluten free lines, is rigid on the inside and soft on the outside, thus having a noise-reducing and accident-prevention function.

Constructed from aluminium, these pizza tools are light in weight and less strenuous on the oven operator. Coated in an anodised coating, thus ensuring optimum resistance to friction and sticking.

PIZZA PLATES

saturnia

Since 1966 Saturnia has been manufacturing quality porcelain tableware products, specialised for catering and domestic use. The success has grown over time, thanks to the enthusiasm and spirit of the management team, the continuous technological innovations and the constant attention dedicated to technical and aesthetic aspects of the products.

For each collection, Saturnia offers a series of Italian designed items, to meet the needs of the table and the kitchen in a modern and traditional way.

Saturnia
 La porcellana da tavola
 Originalità e cultura del made in Italy

Saturnia tableware porcelain is resistant to washing in the dishwasher, can be used in microwave ovens and is produced following European regulations that regulate Food Contact, a strict protocol implemented for the protection of consumers which imposes specific parameters for materials that come into contact with food.

All decorations are made underglaze, a peculiarity that allows the colours applied on the crockery to be indelible over time.
