BioNap

MADE IN ITALY

BioNap was founded on the commitment to eco-friendliness, providing a sustainable, single-use solution that doesn't compromise on quality.

Our products, proudly Made in Italy, combine luxury with responsibility.

They offer the feel of real linen and superior absorption. Available in a wide range of elegant, timeless designs, BioNap napkins and tablecloths allow you to dress your table with both style and environmental consciousness.

The BioNap napkins are available in 4 materials, these include:

- Extra Soft 'Cotton Feel'
- Airlaid 'linen feel'
- Tissue
- Recycled Paper

Discover our collection and make your occasions effortlessly sophisticated and sustainable.

EXTRA SOFT

Cotton Feel Napkins.

- Elastic and absorbent
- Strong and very soft
- Single use, hygienic and beautiful

Napkins offering a real Cotton-Feel with a smooth surface. Exceptionally soft, elastic and absorbent, they are resistant even when wet. With a huge range of colours and designs, the opportunities to create a unique style are infinite.

EXTRA SOFT KITCHEN

Designs that evoke memories of home-cooked food

- Classic and nostalgic
- Simple and elegant design

The kitchen range, with its minimalist patterns, will evoke memories of your grandmother's kitchen, where the classic patterned tea towel was a feature. Beautify your every day table with simplicity, elegance and a cheerful pop of colour.

Suitable for cafés and restaurants that want to combine simplicity and durability with quality and attention to detail. This range is also suitable for restaurants with a traditional and rustic personality.

AIRLAID

Linen Feel.

- Stylish and practical
- Feels very similar to a real textile

The Airlaid Natural range is made of a soft and consistent cellulose material. The cellulose fibers are “dry laid” with a technique that uses air and an EVA binder. With this advanced technique, the result is a material very similar to a textile, making it an excellent disposable napkin that will dress up any table with style while remaining practical.

WOSDE

“DRESS YOUR TABLE”

A family owned and operated business from Tuscany, Wosde pride themselves on creating beautiful and sustainable solutions for furnishing tables.

Years of research and new technology have resulted in a vegan leather that enjoys the look, feel and visual appeal of real leather with the added benefit of being water and oil repellent, stain resistant, and long lasting.

Wosde make all efforts to work under the watchful eye of the European manufacturing accreditation standards. They enjoy and remain committed to working closely with suppliers to ensure they keep up with regulations, new technology and trends.

The result is a range with endless options that will bring style and value to your establishment.

REAL BONDED LEATHER

Chef range

Bonded leather is made entirely from natural raw materials: 65% from genuine leather waste tanned with vegetable substances, 18% natural latex (extract from the rubber tree), 10% water, 5% natural fats and 2% natural colouring agents and salts. The advantage of bonded leather is the guarantee of its duration, colour resistant both to light and rubbing and a smooth surface.

ANTIBACTERIAL PVC

Jute range

High-quality and very wear resistant antibacterial certified PVC. The word "antibacterial" refers to the particular treatment to which the material has been subjected.

Following microbiological analysis against the main foodborne pathogens, no bacterial / fungal growth was detected on the treated material, unlike the non treated articles.

CELLULOSE FIBER

Ecomoda, Custom

Consisting of a mixture of raw materials (pure cellulose, secondary fibers, water) integrated with binding agents (synthetic and natural latex) which are then polymerised. The result is a breathable fabric which has an important supporting function in clothing. Manufacturing of the "ECO" range presupposes the use of materials which are by-products of the paper industry.

REAL CORK

Cork range

Exclusive from MenuModa, a very ecological material, famous for being durable, recyclable, fireproof and washable at the same time. Perfect for a wine list, it can be used for any type of communication and is easy to combine with any style of furnishing or decor. An original and innovative item which will give an eco-friendly touch to your setting.

JUTE

- Sanitisable with antibacterial certification
- Suitable for intensive use

This line of menu covers in PVC are made in Italy. They are printed with a Jute effect finish and boast an antibacterial certification, making them perfect for regular use. The Jute range brings innovation and exceptional durability to any table. With an assortment of "fashion" colours to mix and match as you like, create your own eclectic and unconventional look!

CHEF

Chefs create emotions,
MenuModa brings them to the table

- Sanitisable and washable
- Anti-stain protection
- Suitable for intensive use

Just as a chef would do when presenting his dishes, this line of menu covers showcases menus in the style they deserve. Since 1989, this material is made of genuine regenerated leather and is the result of much research by MenuModa, to find a product that is soft to touch but has the same resistance and washability as leather.

CORK

A natural choice

- Washable and hygienic
- Resistant to stains
- Suitable for intensive use

This is the MenuModa range that best expresses the elegance of their eco-friendly philosophy. The material, known for its characteristics of durability, hygiene and recyclability, is suitable for presenting your wine lists. Its' neutral colour can be combined with any style of furniture for any type of communication.

ECOMODA

Where design meets nature

- The most ecological
- Suitable for low intensity use

MenuModa has reinvented the material used for jeans labels and developed a revolutionary collection, sensitive to the environment, with an evocative name: ECOMODA. This unique material consists mainly of cellulose and boasts characteristics of lightness and strength. With 3 colour variations that recall the nuances of the earth, ECOMODA shows that respect for the environment can also be a fashionable choice!

CUSTOM LINE

The most graphic.

In this collection, MenuModa reinvents the material used for jeans labels again. The cellulose fiber used for these covers is easily washable and is an ecological, fashionable and lightweight choice. The design is optimised for the most common paper sizes and simplicity in adding or replacing the inner sleeves. A functional menu holder while respecting the environment.

MEPRA

S. p. A.

IDEAS FOR LIVING

Founded in 1947, Mepra brings a taste for design and quality combined with a passion for the Italian table and its' traditions.

We are proud to introduce you to this quality Italian brand, recognised and coveted by internationally renowned Chefs such as Alain Ducasse and seen in such establishments as the Waldorf Astoria and Bellagio.

Mepra believe that everyone is different and have therefore designed over 400 styles to encourage venues to create different expressions. The Etoile concept allows you to customise products with your own logo and design.

Admired particularly for their innovative coloured stainless steel cutlery, these elegant, premium products have a lifetime guarantee and an exclusive dishwasher-safe pewter finish.

BISETTI

Founded in 1945, Bissetti is an internationally recognised brand that embodies traditional craftsmanship while looking towards the future with attention to detail.

Made in Italy, their products are a combination of local artisan tradition and modern machinery, ensuring high quality standards for the market.

In addition, Bissetti has embraced eco-friendly practices, starting with FSC certification and transitioning to a “green” company with modern waste processing systems and a low carbon footprint. Each product is entirely produced in our facility in order to guarantee the highest quality control.

Specialising in wood products, Bissetti offers elegantly designed and crafted chopping boards and salt and pepper mills with strong, resistant mechanical features. Promising durability for years to come in your kitchen, a claim that is backed with a 10 Year warranty on the grinding mechanism.

NEW

MADE IN ITALY

VINTAGE

Elevate your culinary experience with these stunning vintage salt and pepper mills.

Crafted from durable fir wood with a beautiful, rustic finish, these ergonomic mills add a touch of timeless elegance to any table setting.

- Available in soothing light blue or classic ivory
- Visible wood grain adds unique character to each mill
- Precision mechanism grinds spices with ease
- Ergonomic design for comfortable, effortless use

These vintage inspired mills aren't just beautiful, they're incredibly functional too. Freshly ground salt and pepper will take your cooking to new flavourful heights, while the solid wood construction ensures long-lasting performance.

ROMA

The lines of the Roma salt and pepper grinders are inspired by the classical architecture of Italy's capital.

They will adapt to the most modern tables and kitchens of the most traditional design. Crafted from the finest European Beechwood, these mills combine old world charm with modern convenience.

- Available in 3 sizes (13cm, 18cm, 25cm) to suit all kitchen and table requirements
- Professional-grade grinding mechanism for precise seasoning control

The Roma mills are more than just functional kitchen and table tools - with their sleek, elegant lines, these mills seamlessly blend form and function, elevating your meals and your venue decor.

NEW

Caleido is the new buffet line designed and manufactured by Pinti Inox Italy.

Following the modern catering trends offering elegant colour options, a mix of materials and technical performance.

BROAD RANGE

This product line includes 10 different bases that can be combined together to meet the needs of big hotels and small independent restaurants.

MINIMAL DESIGN

The pure, neutral and minimal shape of the metal frames, makes Caleido buffet line suitable for all catering locations, from classic to modern.

COLOUR OPTIONS

The metal bases are available in 4 different colours: Sage, Cream, Coffee & Coal. A welcome alternative to the plain stainless steel buffet solutions. Porcelain trays can be added to the Gastronorm basins.

NEW

MADE IN ITALY

PINTI *buffet*
—
CALEIDO

VERSATILE MODULAR DESIGN

Each item is composed of a stainless steel base and a functional part following gastronorm standards. This offers a modular buffet solution which can be easily adapted to from Breakfast to lunch to dinner since the same base can be used with several functional parts.

STRONG & RESISTANT

The Caleido structures are made of powder coated stainless steel, resistant to an intensive indoor but also to an outdoor use.

CUSTOMISATION

Are you looking for something different? Ask for a quote to customise your Caleido range with the color and the composition of your venue.

ROYALE

Royale is a world-leader in the production of tableware, oven-proof and buffet porcelain, 100% Made in Italy.

The strength of the Royale brand name and of its experienced employees allows Royale to be a very versatile company, able to satisfy every demand of the market and to manufacture items within efficient times frames whilst maintaining a competitive cost price.

The Royale Oven Porcelain collection is characterised by the careful selection of high quality raw materials and the guaranteed resistance offered by the final firing at 1,320 degrees in a cycle of 24 hours.

These oven-proof baking dishes withstand heat and high oven temperatures, except those coming from "direct flame".

These items are totally lead-free and constantly checked to keep the quality standards very high.

BAUSCHER

Making the porcelain of tomorrow since 1881.

- a globally renowned brand for professional, international dining
- professional porcelain for the restaurants, catering, hotel, hospital and care sector

BAUSCHER OPTIONS

Less is more.

Simple, but never dull. Modern, but never brash.

Simple, modern, unique.

This is Options — one of Bauscher's most extensive collections featuring various coupe and rimmed plates. Generous proportions always keep the spotlight on the essential feature - art on the plate.

BAUSCHER RAFFINESSE

The flair of inventive cuisine

High end cuisine demands creative cooking and service.

The Raffinesse range, made from the cream-coloured, silky sheen of Duracream® hard porcelain offers an ideal canvas for experimentation. With subtle lines and details inspired by nature, the collection's broad spectrum of pieces will reflect the personal signature of any Chef de Cuisine and provide inspiration for unique ways of presenting fine foods.

Crafted and designed in Italy, Royale's SuMisura collections exemplify pure porcelain artistry.

The romance of Materia is expressed through fluid lines and movements that give rise to natural shapes, both brutal and soft. These designs evoke the roughness of parched soil with their biscuit finish and the polished, sparkling calmness of the sea in the fully glazed version.

Sumisura pieces are entirely handmade, symbolising the unique union found in art: between earth and humanity, between a freely given gift and dedicated craftsmanship, much like the harmony found in a kitchen.

NEW

MADE IN ITALY

Sumisura pieces are meticulously hand modelled and decorated by highly skilled craftsmen, many of whom have inherited their craft through generations.

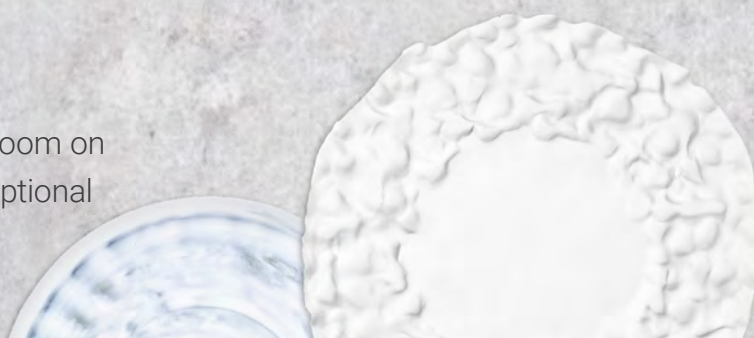

Sumisura pieces are meticulously hand modelled and decorated by highly skilled craftsmen, many of whom have inherited their craft through generations.

This level of artistry requires passion and dedication, qualities that define true love for the craft. SuMisura creates timeless works of art, offering enduring beauty in a world of fleeting trends. SuMisura brings a touch of emotion to the dining experience with its unique, luxurious and elegant designs. Celebrated by top chefs globally, this collection truly exemplifies 'Table Art,' setting an unmatched standard of excellence and quality.

GLASSWARE

ELYTUM - TEMPERED SHEER RIM GLASSES

HOSTELVIA - TEMPERED GLASSES

VICRILA

At Vicrila they are committed to leaving the smallest environmental footprint.

They have a strong and continuous manufacturing process under the following certifications and features:

**FULLY
TEMPERED**
EXTRA RESISTANT
UP TO **5** USEFUL LIFE

CORTE FINO
SHEER RIM

LESS BREAKAGE

- In the rare event of breakage, the glass will shatter into small pieces making it safer
- Glasses are fully tempered meaning they are cooled quickly to obtain more resistant glasses
- The most ecological option - they are 100% recyclable and do not require treatment before they are processed
- Glass has endless lives. After its use, it can be simply deposited into the green recycling containers

The ISO 50001 certification guarantees that Vicrila has a real and serious commitment to the environment thanks to the constant improvement in its energetic performance.

Our goal is to maintain and improve energy management systems throughout the organization, tending to energy efficiency that allows us to take care of the environment.

The ISO 14001 certification indicates that Vicrila integrates into its processes and way of working mechanisms to protect the environment through the prevention or mitigation of adverse environmental impacts. And it means controlling the way in which the products and services of the organization are designed, manufactured, distributed, consumed and eliminated using a life-cycle perspective that can prevent environmental impacts from involuntarily moving elsewhere in the life cycle.

ELYTIUM

Vicrila's most premium range:

- No rim on the mouth making them elegant and of high quality both visually and in bringing out the best in your drink of choice
- The perfect option for your best wines and cocktails

PIZZA OVENS

COLLEZIONE
PUNTO **ROSSO** 

PIAZZA

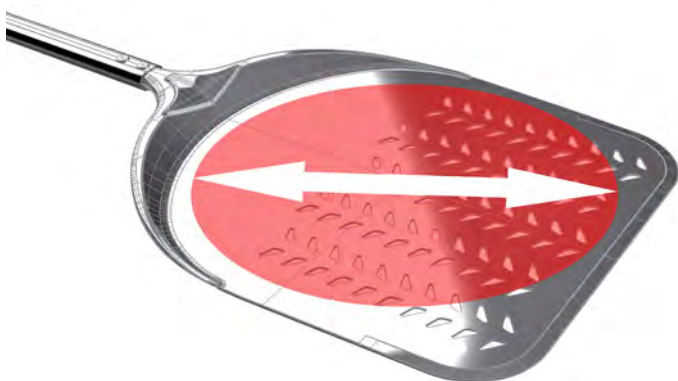

PIAZZA

The design of the pizza peel offers the maximum available surface to place the pizza in the oven without any obstacles. The bevel on the three sides ensures comfort, ease and efficiency of use.

UP TO 500°C (932°F)

Green range gluten free - recognizable at a glance.

Individual packaging for better storage.

A reinforcement rib on the back and the internal core ensures robustness and resistance to heat and hygiene.

PEEL SELECTIONS

Constructed from aluminium, light in weight and less strenuous on the oven operator.

Coated in an anodised coating, ensuring optimum resistance to friction and sticking.

NEW

MADE IN ITALY

MAM Ovens is a leading company in the design, development, and production of pizza ovens, present in the national, international, and EU markets for over 50 years.

MAM manufactures wood-fired, gas, or combined ovens with a high degree of insulation and thermal efficiency, ensuring superior performance during the cooking phase.

They come in various shapes, and you can choose to receive them pre-assembled or disassembled for on-site assembly. A very important aspect of these pizza ovens is the thickness of the cooking surfaces and domes.
